

## **THE SKIN OF THE WORLD**

The artistic action proposed by the Italian artist Anna Pozzali integrates people – both in a symbolic and real meaning of this term – by **inviting them to create a textile/dress**. This patchwork will be made of different stripes of cloth coming from the participants' homeland: men are also welcome!

The process of sewing implicates actions of sharing, unifying and creating a new form: all important as much as the final art work itself. These creative meetings will encourage participants to share their experiences of being immigrants, to create new links, spin stories and discover new relations.

Meetings will take place In Warsaw, twice a week from the 5-th of march 2013

On **Tuesdays** (from 5.III) **18:00** in Somalia Foundation, Chmielna Street 26/19

On **Saturdays** (from 9.III) **12:00** in Marszałkowska street 4 / 4

Choose the day you can, you are invited to join us even once or many times!
